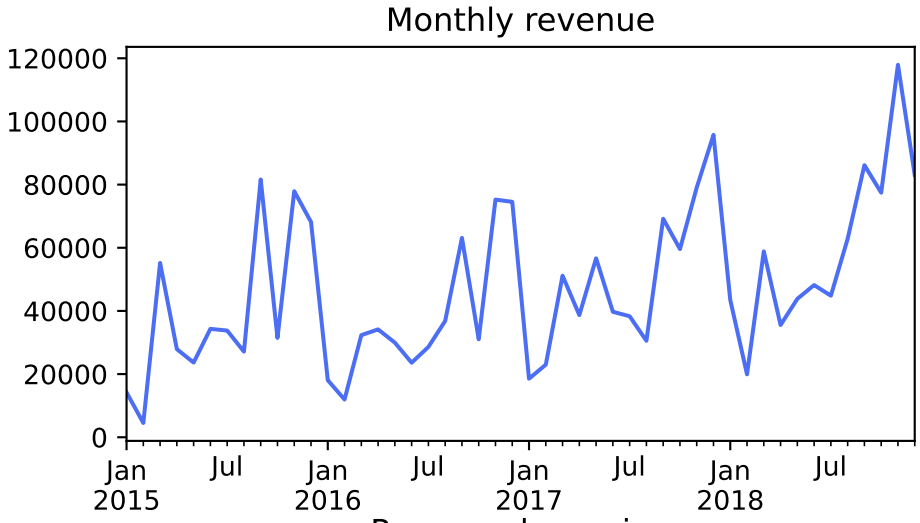
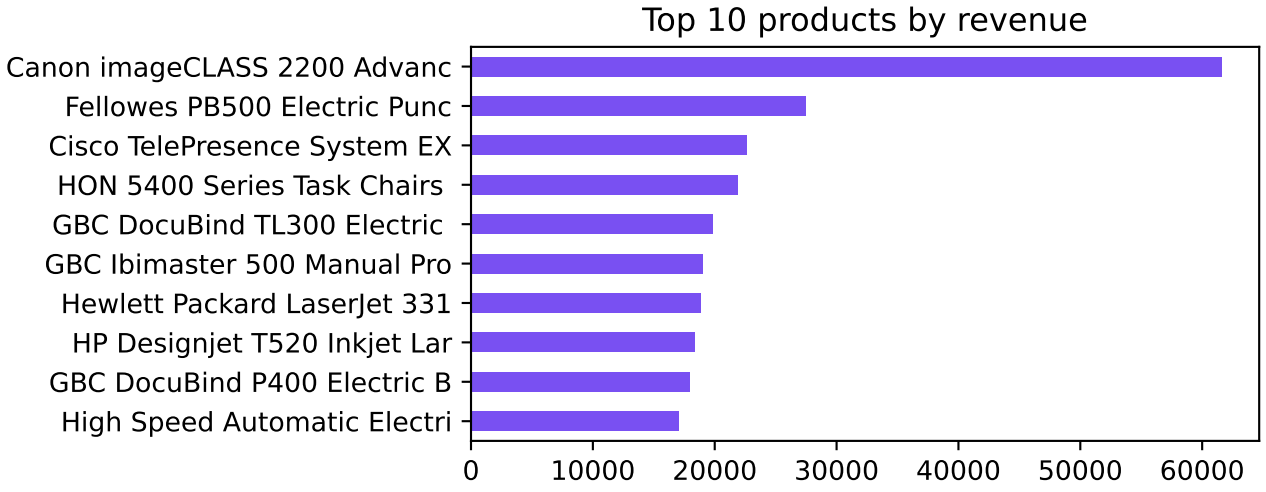
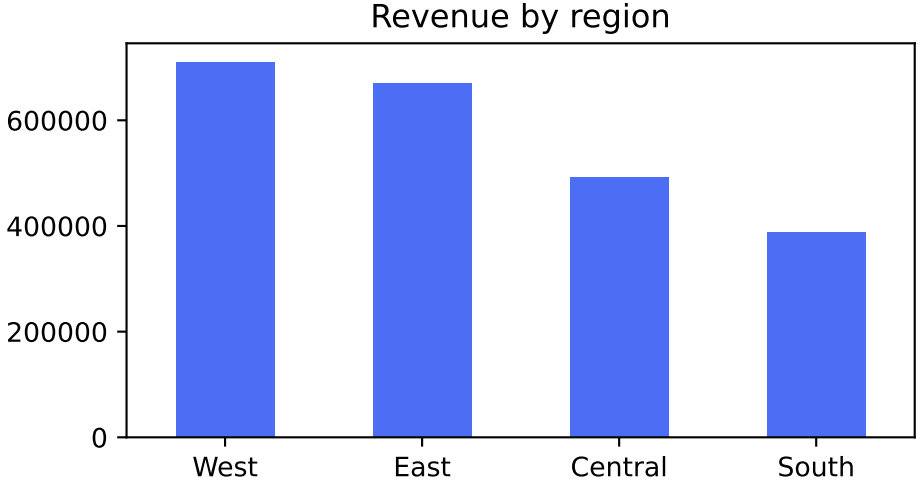
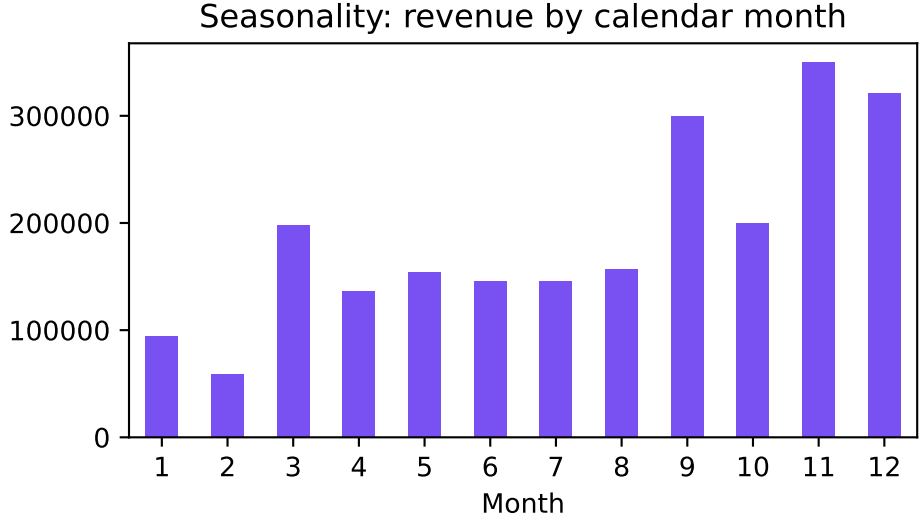
Sales Analysis Summary

Total revenue: $2,261,537 | *Orders*: 4,922 | *Avgordervalue*: 459.48









Recommendations

1. Prepare for the year-end peak: Sep, Nov and Dec bring in 43% of revenue. Build inventory and start campaigns by August.
2. Lift the slow months: Jan and Feb are only ~7% of revenue. Try promotions, bundles or B2B deals to smooth demand.
3. Back West and East (61% of revenue) and investigate South (17%). Check whether it has fewer customers or smaller orders.
4. Keep top office equipment well stocked (the Canon copier alone is 2.7% of revenue) and cross-sell related items such as binding supplies.
